Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned in this resume.

PROFILE

Motivated B.Tech CSE (AI & ML) student with a CGPA of 8.0, skilled in Python, SQL, HTML, CSS, and basic JavaScript, with knowledge of Machine Learning and Generative AI. Passionate about problem-solving, web development, and building intelligent real-world solutions while seeking internship opportunities to enhance technical skills and practical experience

EDUCATION

secondary education 2020 - 2021

Sri krishna veni high school, leeza, Gadwal.

GPA: 10/10

Intermediate 2021 - 2023

Government junior college, leeja, Gadwal.

%: 81.2 %

Btech-cse AI & ML 2023-2027

Sanskriti university, Mathura

GPA: 8.0

PROJECTS

Student Portal Website

Developed a responsive student portal using HTML, CSS, JavaScript, and GitHub for version control.

Implemented features like student login interface, navigation dashboard, and responsive UI design.

Improved frontend usability and basic web interaction handling.

Street Food Website

Designed and developed a responsive food ordering/display website using HTML, CSS, and JavaScript.

Created attractive UI pages including menu display, food categories, and contact section.

Focused on responsive web design and user-friendly experience.

Kidney chronic disease prediction

Built a Machine Learning model to predict diabetes based on health parameters using Python and ML algorithms.

Performed data preprocessing, training, and evaluation on medical datasets.

ACHIEVEMENTS & CERTIFICATIONS

Successfully completed a certification in Data Structures and Algorithms, strengthening problem-solving and programming fundamentals, certified by Infosys
